◆ Advanced Patient Adjustment Features

Powered by 4 Premium DC Motors

Ultra-quiet, medical-grade motors ensure smooth and precise movement for optimal patient comfort and caregiver convenience

Dual-Sided CPR Emergency Levers

Manual CPR release handles located on both sides of the backrest for rapid access and enhanced safety

Smart Preset Positioning with Single Button Activation

Easily accessible from the control panel:

- Fowler & Semi-Fowler
- Vascular (Elevated Legs)
- Auto Contour (simultaneous back/leg adjustment)
- Shock Position
- Cardiac Chair Position
- Bed Exit
- Auto CPR – instantly flattens the bed during emergencies

Fully Electric 5-Function Adjustment

Smooth electronic control of:

- Backrest
- Legrest
- Height elevation
- Trendelenburg
- Reverse Trendelenburg

Ratchet-Adjustable Foot Section

Manual adjustment via ergonomic ratchet mechanism for additional leg support and comfort

◆ Nurse & Caregiver Control System

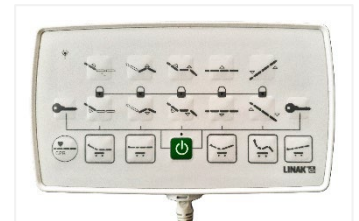

Side Rail Embedded Control Panels

Intuitively placed dual-side embedded controls allow both patients and caregivers to operate essential functions conveniently, promoting independence and reducing caregiver workload.

Wired Main Nurse Control

Centralized control unit with full access to all bed functions, including a function lock-out feature to prevent unintended or unsafe adjustments, ensuring maximum patient safety.

◆ Enhanced Safety & Mobility Features

Hygienic, Lockable Side Rails

Durable tuck-away side rails made of high-strength PP material, designed for easy cleaning and secure patient containment.

Advanced Mobility with Central Locking Castors

Equipped with four Ø150 mm high-performance castors, the bed offers enhanced maneuverability through a **3-mode locking system**:

- Central Locking Mode – Locks all castors simultaneously for maximum stability
- Directional Steering Lock – Ensures straight-line movement for safe and controlled transport.
- Neutral Mode – Allows all castors to rotate freely for smooth repositioning in any direction

Integrated Angle Indicators

Built-in indicators on the side rails provide precise visual reference for Backrest, Trendelenburg, and Reverse Trendelenburg angles, aiding in accurate patient positioning.

Corner Crash Protection

Heavy-duty integrated plastic bumpers protect the bed and surrounding environment during transport or repositioning

Rechargeable Emergency Battery Backup

Ensures continued bed operation in the event of a power outage—maintaining critical adjustments and patient safety.

◆ Structural & Hygiene-Conscious Design

Corrosion-Resistant Metal Frame

Robust steel structure coated with electrostatic epoxy paint, offering superior durability and enhanced infection control in demanding clinical environments.

Heavy-Duty Scissor Lift Mechanism

Engineered for stability and smooth, precise adjustment of all bed positions, ensuring long-term performance and patient safety.

4-Section Mattress Platform with X-Ray Translucent Panels

Removable ABS panels for each section allow easy cleaning and disinfection. Made of X-ray translucent ABS to enable imaging without moving the patient with cassette holder at backrest

Easy Removable PP Head & Foot Boards

Lightweight, removable boards provide rapid access during emergencies or procedures, and are made of durable, easy-to-clean polypropylene.

Built-in Urine Bag Holders

Discreetly integrated into the side rail design for easy access and secure attachment, supporting patient care routines with ergonomic convenience.

Height-Adjustable IV Pole

Sturdy IV pole with 4 hooks, designed for easy height adjustment and secure mounting on four integrated receptacles located at each corner of the bed.

TECHNICAL DETAILS

Overall Length:	220 cm
Overall Width:	100 cm
Mattress Surface:	85 x 200 cm
Height:	37-85 cm
Trendelenburg:	0°-17°
Reverse Trendelenburg:	0°-17°
Backrest Angle:	0°-70°
Legrest Angle:	0°-40°
Castor Diameter:	15 cm
Under bed Clearance:	15 cm
Safe Working Load:	250 kg

ELECTRICAL DATA

Power In:	1.5A max. At 230V AC 50-60 Hz
Electrical Shock Protection:	Class I, Type B
Liquid Ingress Protection:	IPX6
Batteries:	2x 12V Series Connected, sealed, rechargeable, Lead / Acid gel, 1.2 amp hrs.

Optional Accessories

Bed Extension

Oxygen Cylinder Holder

Urine Bag Basket

Stationary Headboard

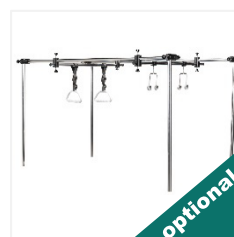

Lifting Pole

Defibrillator Shelf

Nurse Panel Shelf

Orthopedic Traction System

Linen Holder

5th Castor

Weight Scale System

Touch Screen foot-end bed

Double Wheels

Foot Switch
